

Zendocrin™

Detoxification Complex

Product Description

dōTERRA's Zendocrin™ Detoxification Complex is a proprietary blend of whole-food extracts in a patented enzyme delivery system that supports healthy cleansing and filtering functions of the liver, kidneys, colon, lungs, and skin. *

Concept

As part of requisite body functions of eating, breathing, and coming in contact with our environment through our skin, our bodies are exposed to numerous toxins and microbial pathogens. One of the primary functions of vital organs is to act as protective filters against such harmful agents. The largest organ of the body, the skin, has a primary protective function against toxic exposure and infection. The lungs help filter the air we breathe from particulates and pollutants. The gastrointestinal tract from the stomach to the colon of the large intestine also perform significant cleansing and filtering of toxins entering our bodies with the food we eat. If toxins make it past these organs on the first line of defense, other organs such as the kidneys and liver perform additional filtering functions to rid our bodies of chemicals and pathogens that can cause us harm.

The body's filtering and waste management system is quite capable of managing a certain amount of exposure to toxic influencers. But in a modern world of environmental pollutions and harmful chemicals found in prepared foods, beauty products, treated water, etc. the body's filtering system can be significantly challenged. Just as a filter in a car, furnace, or coffee machine can plug up over time, your body's filtering organs can also become "plugged" with toxins. Healthy organs have the capacity to "clean" or "unplug" themselves under normal conditions, but many sub-optimal health conditions of the liver, kidneys, colon, lungs and skin can result from an overexposure and buildup of toxicity in these vital organs.

Supporting healthy cleansing and filtering functions of these organs begins by limiting exposure to environmental toxins we breathe or touch and by eliminating foods that have

artificial chemicals or that have been treated with pesticides and other harmful chemicals. Hydrating frequently with clean water is also essential for healthy function of our cleansing organs. Additionally, supplementing our healthy diets with functional nutrients that provide targeted support for specific organs can support healthy cleansing and filtering functions of the body.*

dōTERRA's Zendocrine™ Detoxification Complex

dōTERRA's Zendocrine is a proprietary blend of whole-food extracts formulated to support the healthy cleansing and filtering functions of the liver, kidneys, colon, lungs, and skin.* Each whole-food botanical extract was selected specifically to support organ capacity to both provide protective cleansing and filtering functions for the body and to support the organ's own capacity to rid itself of stored toxic waste products. Zendocrine also uses a patented† enzyme assimilation system to help with whole-food extract absorption and is packaged in SLS-free vegetable capsule.

Targeted Organ	Whole-food Extract
Liver	Barberry leaf, Milk Thistle seed, Burdock root, Clove bud, Dandelion root, Garlic fruit, Red Clover leaf
Kidneys	Turkish Rhubarb stem, Burdock root, Clove bud, Dandelion root
Colon	Psyllium seed husk, Turkish Rhubarb stem, Acacia Gum bark, Marshmallow root
Lungs	Osha root, Safflower petals
Skin	Kelp, Milk Thistle seed, Burdock root, Clove bud, Garlic fruit

Primary Benefits

- Supports healthy cleansing and filtering functions of the liver, kidneys, colon, lungs, and skin*
- Supports normal self-detoxification functions of the cleansing organs*

What Makes This Product Unique?

- Proprietary blend of 14 active whole-food extracts targeting specific cleansing organs
- Patented† Enzyme Assimilation System of Amylase and Cellulase their natural mineral cofactors Magnesium and Manganese
- Whole-food formula made with sodium lauryl sulfate-free HPMC vegetable capsules

Who Should Use this Product?

Zendocrine is formulated for use by all adults concerned with toxic exposure and toxic buildup in the cleansing and filtering organs of the body.

Directions for Use

Take two (2) capsules daily, one with morning and one with evening meals. For optimal benefits, avoid increased toxic load to your organs via your food supply by reducing the amount of foods prepared with artificial colors, preservatives, and sweeteners and by increasing your consumption of pure water throughout the day. Zendocrine's benefits can be enhanced by using a blend of dōTERRA's Certified Pure Therapeutic Grade essential oils of Clove, Grapefruit, Geranium, and Rosemary—blend four (4) drops of each essential oil in an empty capsule and take with one Zendocrine capsule with your evening meal.

Cautions

Pregnant or lactating women and people with known medical conditions should consult a physician before using. Does not contain wheat or milk products. Does not contain ingredients made from animals.
